

Advanced Telemetry secures financing

San Diego-based **Advanced Telemetry** has closed its Series B investment round with funding led by **Quercus Trust** and a co-investment from **21Ventures**.

Both **Quercus Trust** and **21Ventures** were investors in **Advanced Telemetry's** Series A round.

The funds will be used to increase production and to expand sales channels of **EcoView Residential** and **EcoView Commercial**, smart energy and resource management systems for residential and business applications.

EcoView Commercial has been installed with franchisees of some of the nations largest quick service and full service restaurants including **Taco Bell**, **Burger King**, **Arby's**, **Jim & Nick's Bar-B-Q** and others. Source Code: 20090721tqd
