

BY MERILEE KERN

The year 2019 has ushered in an array of innovations across multiple consumer product categories to certainly include the food and beverage sectors. With reports citing that 2019 will be a pivotal year for consumer technology, here's a look at some noteworthy lifestyle-enhancing solutions that are keen on making an indelible impact on our daily lives.

# 5 INTERESTING F&B INNOVATIONS

## Anova Precision Cooker Nano

The Anova Precision Cooker Nano is an appliance innovation allowing you to cook delicious, restaurant-quality meals in the comfort of your own home. Paired with the Anova App, which features the world's largest collection of sous vide recipes, this device makes it easy to cook, control and keep track of your recipe from your mobile phone. Simply choose a recipe, press start, and the Nano does the rest. Used by professional chefs for decades, sous vide is a simple and approachable technique that eliminates overcooked, dried out food and ensures edge-to-edge perfection every time. Whether it's steak, chicken, fish, vegetables, or even crème brûlée, with the Anova Precision Cooker Nano anyone can cook like a pro!

## Sharp Superheated Steam Countertop Oven

The Sharp Superheated Steam Countertop Oven is an extremely efficient option perfect for every-day use, allowing you to keep your big oven clean for special occasions. The combination of superheated steam and conventional, radiant heat in all cooking modes means that food will be crispy and browned on the outside, moist and delicious on the inside. You won't need to preheat your oven before cooking or even defrost the food the night before. You can simply place food into the oven, set the desired cooking mode, temperature and time. With multiple cooking modes, this countertop oven provides endless cooking possibilities and will eliminate the need for multiple small countertop appliances. The included broiling pan and crisper tray gives you two-tier-cooking and they are 40 per cent larger than a standard, quarter-size sheet pan making it perfect for anything from making sheet pan dinners for the whole family, to hors d'oeuvres for party guests.

## Cauldryn Battery Heated Mug

Those indelibly on-the-go will love Cauldryn. This heated, battery-powered mug keeps your coffee, tea, soup and other liquids at your selected temperature all day long, making each sip perfect. Pick any temperature from room temp to boiling, and Cauldryn precisely

maintains it thanks to its 10-hour battery life. Use the arrow buttons on the bottle to set your temperature, or use the free phone app to control it from a distance. The app also features one touch settings for brewing green tea, or cooking freeze dried food. And, Cauldryn's modular design means the battery and heating element are removable for easy cleaning.

## LG SIGNATURE Appliances

LG SIGNATURE is the premium product line from LG Electronics created with the user-experience in mind, all featuring the latest innovative technology. LG SIGNATURE's state-of-the-art InstaView Door-in-Door refrigerator is truly stunning. By simply knocking on the opaque compartment of the refrigerator, you're able to peer inside even without having to open the door, allowing you to peek inside without letting cold air escape. Knock twice on the tinted glass panel and it will illuminate — letting you quickly access your favourite foods and beverages while preventing cold air from escaping. The auto door open feature activates as you approach the refrigerator for hands-free access. LG InstaView refrigerators are available in black stainless steel — featuring a darker hue that's topped with a protective coating. That makes every appliance fingerprint and smudge resistant — a dry cloth is all it takes to bring back its original luster. Or choose an LG SIGNATURE refrigerator with a full stainless steel body and Textured Steel finish for impeccable exterior design that enhances minimalist style to the fullest.
