## ELAINE WILLIAMSON DESIGNS IS LEEDING THE WAY AND GOING GREEN

 iEP  
 11
by: [Rayven](#)

Dallas's high-end residential and commercial interior design firm, [Elaine Williamson Designs](#), recently announced the launch of their own, in-house LEED Accredited home and business design division; headed up by ASID Allied Member Joanna Jackson. Through this "Green Project Portfolio," Jackson and team will execute contracted eco-conscious interior design and re-design projects from start to finish, including defining project scope, space planning and layout conceptualization, and furnishing and materials procurement.

Driving this new Green approach is Elaine Williamson Designs passion to continue to meet the demands in the marketplace for green design solutions - a idea that has quickly (and thankfully) become a way of life - rather than a passing trend. With 5 new projects in the works under the LEED Accredited division (4 residential and 1 commercial) Elaine Williamson Designs is colliding luxurious interiors with eco-conscious design solutions for beautiful spaces and healthier living.
