

## Customer Testimonials are Proof Positive

"I am a big fan of your **Craving Control** product and recommend it to all of my friends. I use Craving Control everyday usually in the morning and mid-afternoon. I have been fighting weight fluctuations for many years and am currently in a great place but I still get the urge to eat unhealthy snacks at work and at home. Whenever I am hungry between meals and especially when I want chocolate or ice cream I take a Craving Control and have a healthy snack like almonds or carrot sticks. For me, the combination satisfies me and gives me a little support to avoid the urge to eat."

"Thanks for making your **Chill** product. I have now been taking it for a few weeks and it has such a calming affect on me. I take it at work when I have my late morning green tea and it just eases me calmly into the afternoon."

"I feel healthier and have been sick a lot less since I started taking your products. I take two **Essentials** and two **Renewals** almost everyday. I take the products to work and take them each afternoon after lunch. I try to eat well but it's almost impossible to get enough vegetables each day and I feel like your products give me that extra help."

"**Dream Supply** is an aptly named product. My slumber with Dream Supply is fitful and my dreams soothing and calm. I am not someone to take sleeping pills, and I was seeking a natural remedy to help aid my sleep. Dream Supply works great and I have recommended it to friends."

"I work way too much and am always feeling like I'm running around. This leaves me worn down during the day but at night I have trouble relaxing and getting to sleep. I've started taking your **Chill** product when I get home in the evening and then right before bed, I take **Dream Supply**. The combination quiets my brain and slows me down so I can relax and get the rest I need. I also enjoy your Health Tips. Keep it up."
