

## Company Overview

Good Elements™, Inc. manufactures and markets the absolute highest quality all-natural, doctor-formulated health supplements available in the marketplace today. Each of the company's formulations are made with only the highest grade ingredients, which are independently tested to assure consumer effectiveness and safety.

Good Elements' best-of-breed supplement line is specially designed to provides the nutrition and balance needed to support everyday healthy living. When combined with a nutritious diet and active lifestyle, the company's holistic approach to wellness better enables the body's intrinsic ability to maintain and heal itself naturally, without synthetic drugs or surgery.

Not to be confused with "herbal remedies," in addition to using many time honored and clinically proven herbs, Good Elements supplements also contain other essential nutrient sources, including vitamins, minerals, green foods, food extracts, enzymes and amino acids.

The rigorously sourced ingredients in Good Elements' supplement formulations have been thoughtfully combined to maximize their effectiveness and absorption relative to specific health concerns and objectives, delivering results users can count on.

### The Good Elements line of all-natural health supplements includes:

**Essentials™** - A complete daily multivitamin and mineral formula containing a unique blend of enzymes, super green plants and herbal extracts.

**Renewal™** - An all natural, complete antioxidant supplement formulated to help users look and feel younger by promoting anti-aging and the health and longevity of the body's cells.

**Boost™** - A natural energy supplement containing healthful nutrients and herbs used for centuries to help the body sustain energy levels and improve stamina without producing peaks and crashes.

**Dream Supply™** - A safe, gentle and effective sleep formula that promotes a restful and restorative deep sleep without next day drowsiness.

**Craving Control™** - A dietary supplement that facilitates safe weight loss by increasing metabolism and stabilizing blood sugar levels to help users avoid unhealthy snacking.

**Chill™** - An all-natural, non-addictive stress and anxiety relief supplement that reduces feelings of anxiety, and supports emotional well being by moderating the body's physical and emotional response to daily stress.

**Resistance™** - A completely natural immune system booster that strengthens the body's natural defenses in the fight against common illnesses.

**Lucid™** - A "brain power" blend that helps support memory, concentration and overall cognitive performance by aiding the circulation of blood and oxygen to the brain, which also helps to remove unwanted toxins.

**Motion™** - An anti-inflammatory supplement that reduces joint pain, improves mobility and promotes overall joint health.

**Sneeze-less™** - A non-drowsy formulation helps reduce the symptoms of an allergic reaction while helping to strengthen and retrain your immune system to better deal with future allergic exposure.
