

# TOOLS TO ENHANCE YOUR TRAVEL LIFE

By Merilee Kern

It's a fresh new year and the perfect time to refresh our travel routines. With this in mind, here are an array of tried-and-true travel enhancers and problem solvers that'll help ensure a great year of adventure ahead.

## EAGLE CREEK LUGGAGE

Travel enthusiasts will surely adore Eagle Creek, including its Weekend Warrior Gear Kit. This bag will refuse to let you over pack, while ensuring you're organized and efficient. With it, you can bolt through the airports thanks to the Tarmac Carry-On's oversized wheels, and easily lift it into overhead airplane bins courtesy of sturdy handles. For bigger jaunts, the Eagle Creek ORV Trunk 36 is a stellar option. It's a durable, lightweight, dependable and efficient design ideal for every adventure.

The kit retails at \$369.

## NASALGUARD AIR BORNE PARTICLE BLOCKER

Prevent the cold and flu often contracted while traveling, and indoor and outdoor allergies, with NasalGuard. With a mild electrostatic charge, this topical gel reduces inhalation of particles as small as rhinovirus, pet dander or pollen, along with many other airborne pollutants, contaminants and allergens. The electrostatic technology creates an invisible filter around the outside of your nasal passages. It is drug-free and lasts up to 150 applications.

NasalGuard is priced at \$14.85.

## ZUMER DUFFEL BAG

The Zumer Sport Basketball Material Duffel Bag is created from actual basketball material. It's durable, puncture resistant and virtually spill proof. It's perfect for guys or girls of any age, in any environment. The bag includes multiple pockets and a separate shoe compartment. Any NBA or NCAA hoops fan will love this. The luggage tags — also available in soccer and other sports ball materials — are an eye-catching and conversation-starting way to easily identify your suitcase or bag while traveling.

The bag is priced at \$79.99.

## KAMI HOME CAMERA

Want peace of mind while you're traveling? Check out Kami, which offers an economical and complete AI-featured home security system. Mount the camera on a surface or on the ceiling, and it'll give you more control over what you want to see in your room. In fact, its 360-degree rotation gives you an entire room's view from one location. There are also sophisticated algorithms that allow for smarter alerts. With AI-based detection of humans, pets and abnormal sound, you only get alerted when it actually matters.

[This camera retails at \\$89.80.](#)

YI Technology

While traveling, being on time is of the essence, so achieve this with a stylish watch from Armitron. The company offers a line of fashionable and affordable dress, sport and outdoor adventure varieties for both men and women. Armitron has been creating watches for every occasion, including Swarovski crystal and diamond-embellished styles. I'm particularly fond of Armitron's black dress watches like the Black Dress Bangle Watch with a shiny solitaire Diamond Accent for gals, and the Black IP Stainless Steel Analog Bracelet Watch for guys.

## ARMITRON WATCHES

## N P BEAUTIFUL HAIR DRYER

When out and about, we all want to ensure we have lovely locks. This highly portable blow dryer makes every day styling a breeze. It's lightweight, has a high-wind performance motor, a protective tourmaline-coated grill that dries hair super-fast, a cool-shot button to seal your look in place and an extra-long cord for effortless styling. It has a long-lasting, high quality engine that produces a concentrated airflow flushing through the nozzle for fast drying. The unit includes two double-injected durable nozzles for long-term use. Perfect for all hair types, it's a great way to get a smooth, high-shine finish.

[This hair dryer is priced at \\$198.](#)
