

## 2022 Lucid Air Grand Touring

► Lucid Air Grand Touring and Grand Touring Performance are here — pushing the limits of efficiency and exhilaration while surrounding drivers and their passengers in style and comfort.

For those seeking maximum thrills, Lucid engineered a model that takes driving dynamics further than the Lucid Air Grand Touring Performance. Optimized for acceleration, Grand Touring Performance delivers 1,050 horsepower, a top speed of 168 mph, and a staggering 2.6-second 0-60 time. All with the stamina to travel 446 miles on a single charge. Bespoke wheels and subtle badging hint at the power within.

The Lucid Air Grand Touring is also phenomenally fast, with 819 horsepower on tap, a max speed of 168 mph, a 3.0-second 0-60 time, and a record-breaking range of 516 miles. With ultimate comfort and efficiency, Grand Touring is built to cover more ground — in stunning luxury — and this model is able to be ordered immediately.

Whatever the specs chosen, the Grand Touring delivers incredible performance and luxury. Both Grand Touring models are equipped to deliver a world-class experience for drivers and passengers, with included features such as glass canopy spanning windshield to roof; elegant and intuitive Lucid UX with 34-inch floating Glass Cockpit and 5K resolution; extensive over-the-air software update capability; DreamDrive Pro, which is Lucid's advanced driver assistance system; 21-speaker Surreal Sound immersive audio system with Dolby Atmos compatibility; and an ultra-fast 900V+ charging system.

Both versions of Grand Touring deliver comfortable cabins inspired by California. Rich interior textures and materials add warmth and depth to the experience, while California's mid-century architecture and natural landscapes influence each of the four interior themes.

Lucid Air Grand Touring and Grand Touring Performance are offered in a palette of carefully curated exterior colors: Stellar White, Infinite Black, Cosmos Silver, Quantum Grey and Zenith Red. Both Grand Touring versions come standard with 21-inch Aero Blade wheels with Pirelli tires specially designed for Lucid. The Air Grand Touring is also available with 19-inch Aero range wheels with all-season tires, which further optimize range.

Customer deliveries have already started for Grand Touring, and the new Grand Touring Performance model is going into production later this spring. ■ —Mike Hunter

## Office as Gym?

FlexCycle Under-the-Desk Exercise Bike from LifePro allows people to make the most of their home office and other seating space. This under-the-desk bike is easy on the joints and makes squeezing some aerobic exercise into one's day a breeze. Included with the bike are optional resistance bands that hook up to the desk bike, so users can up their office workout instantly — whenever they like. It's not only perfect for workouts while one works, but also while sitting and streaming a favorite TV show and other occasions. Its compact design helps make it

easy to store and pack away, and portable handles are included. Its soundless motor keeps users engaged with their task at hand, while stabilizers keep the mini stepper from moving. Optional straps tether the stationary pedal exerciser to the desk chair.

Users can even track their progress with the mobile app, available for free download through the Apple and Google Play stores. Login via smart device or computer to track workout progress and view relevant stats to help reach fitness goals. This easy, aerobic exercise tool supports full-body wellness

to enable users to clear their mind while harnessing the body's built-in repair and recovery mechanisms. Every portable exercise bike peddler bearing the LifePro name undergoes rigorous testing to make sure it delivers on power and efficacy, plus it comes with live support and a lifetime guarantee. — **Merilee Kern**, a *Forbes Business Council*, *Newsweek Expert Forum* and *Rolling Stone Culture Council* member

**Your Car at Your Fingertips.** The Lucid app keeps Air owners connected and up to date no matter where they are. Mobile applications are becoming table stakes for cars, but they often feel like an extra or add-on. From the start, Lucid viewed the Lucid Air as a completely connected vehicle, with the Lucid app as a core part of the ownership experience and, eventually, the broader Lucid ecosystem.
