Styptic Balm

We know a clean smooth shave isn't always what you get when you pick up your razor, and getting a cut while shaving not only stings – it's annoying, especially right before a wedding, date night or a day at the beach or pool. That's why Glyder has invented Styptic Balm – a product formulated with premium natural ingredients like aloe vera, vitamin E and argan oil – to help stop the bleeding from shaving cuts and to nourish skin, leaving it fresh and smooth. Glyder has developed a patent-pending formula of wound-sealing antihemorrhagic agents that help promote platelet plugging, which helps heal and seal your nicks and cuts. **\$9.99, GetGlyder.com.**

Pela Case

Traveling can be tough on your smartphone, so a protective case is mission critical. Helping lead the way with environmentally sustainable tech accessories is the Pela Case, the world's first zero-waste compostable phone case. It is made from Flaxstic, a compostable bioplastic elastomer that uses flax straw materials. Pela Case protects your smartphone from scratches, everyday wear and tear and even the occasional drop. It will biodegrade in an industrial compost facility or in your very own backyard composter. Pela Case is also as stylish as it is eco-friendly, available in many different colors and styles for various iPhone and Android models. Pela donates at least 1 percent of its sales to environmental non-profit groups. **Prices vary, PelaCase.com.**
