Today's marketplace is overflowing with products designed to make our lives safer, easier and better, and this certainly includes the billion-dollar self-care trade, where an innovative assortment of such "improvement products" abound. Here's a look at some of the more affordable items that'll keep you well-coiffed and help you put your best foot forward:

Ambiance Volumizing Dry Shampoo (\$20)

Elegant in design, Ambiance Volumizing Dry Shampoo is an innovative alternative to other dry shampoos on the market. Its 100 percent natural, powder formula comes in five hair colors (brunette, blonde, black, red and gray) and is safe and gentle enough to use every day. Beyond making hair look, feel and smell freshly shampooed without the need for water, it does an equally outstanding job of concealing roots between hair colorings. It can even cover areas where hair is thinning. This "three products in one" benefit, along with a sleek applicator brush that fits easily into purses, makes it a great choice for anyone who seeks beauty on the go.

Cool Care Curling/Flat Iron Holder (\$30-\$35)

Have you ever accidentally left your flat iron on and realized it hours later in a complete panic? Do you long for more countertop space in your bathroom? If so, consider Cool Care Heat Protectors ~ 100 percent stainless steel receptacles ~ to help safely store and cool down your hair tools while keeping your bathroom organized. Cool Care offers both wall-mount and tabletop options. The wall-mounted unit is particularly useful in bathroom and vanity areas where space is at a premium. The countertop model has a sleek, sexy appeal for individuals who have bathroom countertops and vanities with room to display their hair-styling tools. The rounded stand is flexible and will not tip over, even with heavier hair-styling accessories. Both designs serve to protect users from burns, providing peace of mind should they inadvertently leave any appliance on.

But don't let its small size fool you. This flat iron boasts many features: It heats up in one minute, has ceramic plates so you do not burn your hair and comes with a 2-foot, 6-inch cable and PSE plug. As an added assurance, the Cool Care mini flat iron also meets UL standards. It's a compact product that handles large and small curling needs at home or on the go.

The brand has been used on Hollywood sets for years and recently was utilized on tour with Lady Gaga and Britney Spears. Moisture Lock is a unique and easily absorbed super-hydrating setting spray that keeps the makeup surface moist and dewy. It goes beyond keeping your makeup on to actually reviving dull makeup. Sugaring Wax (\$10-\$20)

Sugaring wax is not just a salon intervention; it's also great for home use ~ like the specially formulated line of sugaring wax sold at the San Diego-based Beauty by Dolly Salon. Sugaring is an effective and efficient alternative to shaving, which lasts much longer ~ from three to six weeks! Similar to waxing, the sugar wax is applied to the skin and removed with linen strips. But sugar wax is applied at room temperature and adheres only to the hair, resulting in less discomfort or skin irritation during and after the process. Compatible with any skin and hair type and able to remove even the tiniest of hairs, sugar wax is also made of only sugar,

water, lemon juice and glycerin. With this product, you'll be compelled to toss the tweezers, shelve the shaving cream and say good riddance to that rash-inducing razor.
