

## THINKING OUTSIDE THE BOX

Stuff you'd just NEVER think of...

### The National Genographic Participation Kit, \$99.95

For the person who truly has everything, let them find out where they come from, dating from the dawn of humanity. Take a DNA sample (a simple cheek scraping) to participate in a National Geographic study tracking the migration of the human race. After the sample is anonymously analyzed, log on with your kit number and track your history. Kit comes with a DVD and information packet, and the website is awesome. Go to [www3.nationalgeographic.com/genographic](http://www3.nationalgeographic.com/genographic) for more info and to purchase.

**RejuvaWand, \$199.80**  
Anyone over 40 will love this natural home skin appliance and skin care treatment. The Wand uses light and vibration to stimulate the cells that produce collagen and elastin, so, coupled with the creams and gel, you'll see less fine lines and wrinkles before the end of January.  
From [www.rejuvawand.com](http://www.rejuvawand.com) and by calling (800) 297-5544.

**Animal cable organizers, \$0.55**  
Cute animal, dinosaur or fishy cable guys in 30 designs keep the under-desk octopus under control. From Cable Organizer (866) 222-0030; [cableorganizer.com](http://cableorganizer.com)
